

A Safer, Simpler Way to Send Baby Home

The only infant transportation device designed specifically for NICU and L&D teams.

Discharge should feel like a confident send-off, not a juggling act. The Stork Infant Discharge Cart gives nurses a safer, more efficient way to transport newborns in their own car seat — while keeping families comfortable and supported.

Why Nurses Love This Cart

Improves Safety at Discharge

Securely docks the infant carrier

Enhances Patient Experience

Keeps baby close to parent

Simplifies Workflow for Staff

Eliminates carrying belongings separately

Supports Consistent Protocols

Standardizes a critical moment of care

“ We love the cart! It is a great way to get the infant and all the luggage & ”belongings down using one transporter.

How It Works

The Stork Infant Discharge Cart™ securely holds the infant's car seat while providing space for personal belongings. Staff and families can now safely through the facility whether walking or using a wheelchair.

Key Features

● Secure Docking System

- Fits all standard infant car seat carriers
- Pull-tight side hooks secure the carrier

● Quiet, Controlled Movement

- Non-marking, quiet casters & dual safety brakes
- Directional steering control

● Space-Efficient Design

- Same footprint as a wheelchair
- Nesting capability for storage

● Designed for Staff & Families

- Molded shelf and pop-up luggage holder
- Strap for securing smaller items

● Meets Healthcare Safety Standards

- Durable and long-lasting
- Stainless steel + food-grade plastic
